

MASHBUILD WHEATED BOURBON

Many discriminating sippers love wheated bourbons. In fact, high-wheat bourbons are usually among the most sought-after whiskey bottles in the entire world.

Naturally though, we had to put our own unique spin on wheated bourbon.

Our Mashbuild Wheated is made from a mash bill of 59% corn, 29% wheat, and 12% malted barley and we finish that bourbon in a malt whiskey barrel which brings out the “breadiness” of the wheat as well as some subtle fruity flavors.

This is a soft, round whiskey with a creamy mouthfeel and a very smooth finish. Wheated bourbon lovers will enjoy this bottle thoroughly.

But no matter which batch of Mashbuild you are tasting, all of them bring a lot of bourbon flavor, all are unique drinking experiences, 100% exclusive, and 100% delicious.
