

MASHBUILD

BLACK
(KONA FINISH)

Bourbon Whiskey Finished with 100% Kona Coffee Beans

Mashbuild comes from the idea that blending bourbon from different stills, ages, and mash bills will result in a superior product with roundness and depth not found in traditional bourbons.

On a personal note, there are few things that our founder loves as much as he loves bourbon: Kona coffee happens to be one of them. So we wondered,

“What would happen if we combined two of America’s most unique national treasures?”

The answer is, “Pure magic.”

We started with a specially blended batch of our Mashbuild Bourbon and we added 100% Kona coffee beans directly to the barrel to finish the whiskey. We tasted along the way and extracted our first Kona-finished spirit at the perfect moment, where the coffee flavor was distinct but far from overpowering.

The final product is bold, dark, distinctive whiskey with an espresso nose and a very smooth finish. Mashbuild Black can be enjoyed equally straight, on the rocks, or in a cocktail.

Despite tastes of coffee, chocolate, and an earthy “umami” flavor not often found in whiskey, our Kona finish is still part of the Mashbuild family and brings a lot of bourbon flavor.

And as with all our expressions Mashbuild Black is a completely unique drinking experience, 100% exclusive, and 100% delicious.
