

AND NOW FOR
SOMETHING
DIFFERENT

Infinite Oak is made using a continuous aging system that never gets emptied. We add new bourbon to the system to keep the system full. This creates different ages and different flavors that marry together constantly. The range of ages continues to get wider. We have put older bourbons into the system of Malt barrels to create diversity and depth, and we have been waiting, letting it sit for years. The moment is finally here and we are happy to release Infinite Oak.
